SUNDAY FEBRUARY 6 1881

JOHNNY BULL IN A RAGE

The Home rule agitators in the English Parliament have undoubtedly overstepped the bounds of prudence. They have been endeavoring to prevent legislation, especially on the coisition bill, until English patience has been exhausted. When their dilatory motions were exhausted an agitator would secure the floor and rehearse for hours a long-winded harangue that he had already delivered on the question once or twice before. Last Tuesday and Wednesday the House of Commons had a 42 hour session. At about 4 o'clock Wednesday morning one agitator finished a rehearsal of nearly two hours. He was interrupted several times by points of order but Deputy Speaker Cairney stated that though the speaker was gently trying the patience of the House, he was in order. Finally Gladstone entered and was loudly cheered. The speaker resumed his seat and prohibited further debate. Excitement followed. A division was taken and the Government obtained leave to bring in a bill for the protection of life and property in Ireland.

Just before the speaker interposed, Biggar concluded his speech by expressing a wish for the success of Fenianism. It is understood that an appeal to the Chair to stop obstruction is agreed on by the Liberals and Conservatives. The speaker said on stopping obstruction: "For forty-one hours the House has been occupied by repeated motions for adjournment, supported by small minorities in opposition to the general sense of the House. A crisis has arisen which demands the prompt interposition of the Chair. The House measures recommended as urgent in Her Majesty's speech a month ago, are being resisted by a considerable minority, and it is necessary to vindicate the credit and authority of the House. I am satisfied I shall carry out its will and may rely upon its support. I decline to call upon any more members to speak and immediately proceed to put several questions to vote. It will be necessary for the House to assume more efficient control over its debates or entrust greater authority to the Chair. The speaker was repeatedly and enthusiastically cheered. The motion being put that leave be given to bring in a Protection bill, the House ruled for two minutes shouted 'Privilege' and then as the speaker remained standing, they left the House in a body, bowing to the speaker, the remaining members cheering their departure. Finally the House adjourned for a short time. When it re-assembled the conduct of Parnell and about thirty others was so bad that they were suspended by an overwhelming majority, and were put out of the hall by force. It is evident that the unprincipled demagogues have, at last, arrived nearly to the end of their tether. While we sympathize with the burden and oppression of the real sufferers of the land tenants, and hope to see their grievances soon remedied, and which we are confident will be done, yet, we have no love, or good feeling for the horde of demagogues who employ themselves in raising an unnecessary strife and agitation in order to gain popularity among an ignorant class, as we believe Parnell and others are doing. The cause of the actual distressed, are every day being injured, and the sympathy of the world weakened by such men.

THE STATE SAFE

A great many people are crying that the State is bankrupt and that the Treasury is absolutely out of existence. These people are only exhibiting their own ignorance. The truth is that with the exception of New Jersey and Illinois there is not a State in the Union which can make as good financial exhibit as Nevada. On the 1st of January the amount of assets after paying all State debts was \$178,082.14. The State therefore is out of debt, but whenever anyone proposes to build needed public buildings there is a howl to the effect that the State has no money and is bankrupt. What nonsense!

Imposing Spectacle

That was an imposing spectacle when 'Sunset' Cox got up in the House of Representatives on Friday and defended a Confederate claim, on the ground that the time had come for "a gentler and better spirit" to prevail, and that something better should be seen in Congress than a "raging fight over a little appropriation. He then went on to describe a valuable jewel which would probably be found by a Democratic party because it championed fairness and brotherhood. It is some time since Cox has been heard from, and it will occur to one after reading this latest outburst of the funny Representative that he would have done better to preserve an impressive silence.

The deadlock still exists in the Pennsylvania Senatorial election.

France has renewed her proposal for an international silver conference.

An infernal machine, containing a pound of gunpowder, has been found in London square.

The Sussex express train was derailed at St John, N B Friday morning, and two persons were killed.

An English steamer, bound from Buffalo to Middlesboro, foundered Thursday, at sea and thirteen persons were drowned.

At Gold Hill, Friday night P H Buckley was shot and probably fatally wounded by Frank Brown. As usual it was the wrong man injured.

At Dublin it is generally believed that the police will seize the Land League officers and that the League will be disbanded by proclamation.

At a meeting of the Land League Friday night Dillon charged the government with a conspiracy to exasperate Irishmen, and thus secure the passage of the Coisition bill.

The Parnellites yesterday decided after division upon the second reading of the Coisition bill, that they should announce their intention of abandoning further protest against government measures, as their opposition was hopeless.

The small-pox has appeared at the county poorhouse, at Jefferson, Illinois. Seventeen cases were quarantined in a temporary hospital on Tuesday and Thursday. There were eleven cases reported there. The inmates number 1,300. The insane asylum adjoins. The fact has been carefully kept secret.

At 11 o'clock Thursday night John Daily, Union Pacific night switchman, at Omaha was caught in a collision between an engine and freight car and was held fast for an hour until the freight car was raised by jackscrews sufficiently to release him. He was terribly crushed about the hips and died two hours afterward. He leaves a wife and child.

It began raining in Salt Lake at 8 o'clock Friday night, and has been raining incessantly ever since. The mountain streams are swelling rapidly, and if the storm continues railroad and other bridges will be swept away. No damage has yet resulted from the overflow of streams. The storm is the worst ever experienced in Utah.

No track has been laid on the Carson & Colorado railroad for a week, all the men being employed in repairing the damages made by the washout near Dayton. No trains are getting through, as part of the track was washed away. The road down Gold canyon is not yet passable for stages or light vehicles. The work of repairing is in active progress.

Thomas Carlyle died at half past 8 o'clock yesterday morning in London. From 5 o'clock Friday evening until his death he was unconscious, respiration extremely feeble, and the heart's action barely perceptible. He suffered none during the last thirty-six hours. His liver was with him to the last. It is understood that he will be buried in the churchyard of his birthplace, Ecclefechan, Dumfriesshire, Scotland.

Michael Davitt one of the Fenian convicts who was conditionally pardoned, or granted a ticket of leave, and recently one of the Irish agitators, has been re-arrested in Dublin and taken to London, his ticket of leave declared forfeited, and he returned to prison to work out the remainder of his sentence which amounts to five years. Davitt was in the State a few months ago, and delivered an address in Virginia City, and other places in the State. All were greatly impressed by the calm, earnest pleading of the pale one-eyed man, who spoke with the sincerity of a patriot and the courtesy of a gentleman.

KALLOCH AND WHEELER

The trial of young Kalloch for the murder of Charles De Young is progressing very slowly. Not half of the jury have yet been secured.

Wheeler who strangled his sister in law Miss Tilson, and hid her body in a trunk is progressing a little more rapidly. A jury having been obtained the evidence is now being taken. It takes so far with the reports heretofore published. His defense will be 'emotional insanity. He felt bad because she talked of getting married and he would be deprived of longer committing adultery with her.

Cold

Cold weather continues all along the Atlantic coast the thermometer registering from 20 deg to 30 deg below zero last Wednesday night. At New York this night was very cold, the thermometer marking 20 deg below zero, with a high wind. Outside of the city at some points the mercury registered 30 deg below. A spirit thermometer at North Sheldon, Vermont 15 deg below Wednesday night.

Truth rises to explain as follows. By an Act of the Nevada Legislature the people of that State, at the election held last Fall, were required to give an expression of their opinion on the subject of Chinese immigration. The result of the vote on this question showed 183 votes in favor of Chinese immigration and 17,000 against. These 17,000 are characterized by the Herald's back action, the Telegram, as 'hoodlums.' Well, if the men who have honeycombed Mount Davidson and given to the world millions of gold and silver are to be designated by that title, what shall we call Bennett, who never earned an honest dollar in his life? Truth is not now as big a liar as in former times.

A "LITTLE SUTHER" - The Chicago Times says "Senator Jones, of Nevada, occupies General Butler's house on Capitol Hill, which is almost under the shadow of the Capitol. He pays a royal rent and lives like a Prince. His house being so near the Capitol, it is a favorite place for the Senators to drop in and get a 'little suther' when the feeling comes on." Human nature is much the same everywhere and it seems the 'feeling comes on' at Washington much as it would at Pizen Switch or any other place within Uncle Sam's dominions, and the 'feeling' is much the same everywhere, in cabin or vestibule.

Sunday's Washington Post, a Democratic paper, in an article disciplining the Democratic party says: Scores of times a quorum has been broken, and the passage of a Democratic measure defeated by the absence of a few men who at the moment could have been found in a bar-room. The party is in sad position when its success or defeat depends on three or four, or half dozen men whose appetite for stimulants will not give way to any higher sense, and to this complexion has it come with the Democratic party in the House on more than one occasion of the greatest importance. Such men are unfit for any public position. They are a disgrace to their constituents, a reproach to the House, an affliction to the country.

Wednesday evening at the 5:30 train was going up from Carson to Virginia. Chris Cummings, who was on a flat car loaded with lumber, lost his hat, and in trying to jump off the train to get it he fell in such a way that the wheels passed over his right foot from the heel up through the ankle joint, crushing the bones to powder. Mr Cummings was picked up and taken to the County Hospital, where his leg was amputated by Dr. Knby at a point some three or four inches above the ankle joint. The flesh being mangled to nearly that high by the wheels.

Henry S. Kuchenthal, an old man about 70 years of age was murdered in his store at Oleta, Amador county, Cal. last Tuesday night. The murder remains a mystery. The man slept in his store, and upon the fatal night closed his business as usual. Early Wednesday morning he was found dead in the building with his head knocked in with a saw at belonging to the store. The murder could not have been committed for plunder for nothing in the store was disturbed.

The Western Union Company now is the result of the consolidation of more than sixty telegraphic corporations, whose franchises it owns and uses. The growth of its business has been enormous. It has 233,000 miles of wire and more than 9,000 offices, and it sent last year more than 29,000,000 messages. Its receipts in 1880 were more than \$12,000,000, and its expenses more than \$6,000,000, and its profits were \$5,833,937.

Notwithstanding the great floods of water that have been pouring down the channels of the Yuba and Bear rivers for some days past it is announced that the much ridiculed brush dams have stood the pressure and will come out of the ordeal in very good shape. If this be true it is the best evidence needed that those dams will save the people a fortune for which they were intended, when the proper repairs are made upon them.

Charles Baring two tonight is and three young women, coming down hill at College Point. Last Wednesday it was impossible to stop them, which ran off the wharf and broke through the ice in Flush Bay. All were injured but it is thought that two will die from the shock and cold. Shortly after another sled of coasters ran off the same place. All rescued but almost perished.

Bayard Duty of Logansport, Ind. shot his betrothed wife, Annie B. duty last month, because she refused to give him a drink with which to kill a rival, whom she had just dismissed in favor of Duty. She was given up to the but surprised everybody by slowly recovering and a few days ago is seen as she could stand on her feet, she was married to the man who had so nearly murdered her.

Clarence Gray is now on trial at Santa Barbara for the murder of Theodore Glancey late editor of the Santa Barbara Press.

The rainfall in Shasta this season amounts to 83 inches. This is the most remarkable showing for the period ever known in the State.

A representative in the Missouri Legislature has introduced a bill making drunkenness a misdemeanor punishable by fine and imprisonment.

No Masonic body has ever appeared in an inauguration procession, but General Garfield is the first active Knight Templar who has ever been elected President.

Under the new Postal law, which went into effect on the 1st of January, it costs but one cent to send a newspaper to a foreign country, instead of two cents as heretofore.

The injunction against the consolidation of the telegraph companies was Thursday denied by Judge Barrett, of New York, and immediately afterwards the consolidation was carried into effect.

James R. Sloan, formerly of Virginia City, is in Tombstone, Arizona, and has written that it is "the finest place on earth." This is high praise when we remember that Death Valley still exists.

A negro boy named Henry Raymond, aged nineteen years, was sentenced on the 19th instant to five years in the New York State Prison for having stolen a \$70 overcoat from Ulysses S. Grant, Jr.

An inveterate old wag, seeing a heavy door nearly off its hinges, in which condition of neglect it has been left for some time, observed that when it had fallen and killed some one it would probably be hung.

Colonel L. W. Wood died at the pest-house in San Francisco Friday, of small pox, at the age of 52 years. Col. Wood was an old citizen of the State of Nevada. The Woodville mine was named in his honor.

A cable to connect Mexico with the United States will be in place early this month. Heretofore the only telegraphic communication has been via a land line to Matamoros, sometimes involving several days time.

The flood in California continues to grow worse. It was expected that Marysville would be overflowed last night and grave fears are entertained for the safety of Sacramento, as the rivers are still rising.

William son of the hereditary Prince Leopold, of Hohenzollern recently chosen heir to the Rumanian throne, was a few days ago forcibly abducted by three men and taken across the Rhine. He subsequently escaped.

A small boy of Thomaston, Litchfield county, Connecticut, while coasting the other day, encountered a railroad train, but with small boys' luck, his sled passed over the track, between the trucks of a moving freight car, without injuring him in the least.

It is said that some prospectors have struck rich placer mines near Stein's mountain, in Humboldt county. The fact that gold exists all over that part of the country has been known for years, but security of water in that locality renders placer mining practically impossible.

The Philadelphia Chronicle says a shy Pennsylvania girl, having a lover she was afraid wouldn't stick, covered her lips with glue and invited him to kiss her. Owing to the fact that she had previously posted her father when to pounce into the parlor, the plan worked admirably.

Two Gileston men were making arrangements to go into business. One of them says: "It is understood, now, I get two thirds of the profits, having put in the most capital, and you get one third." "All right," responded the other, "but if we have big luck and fail then we are to divide the profits even."

On the night of the 1st the east bound stage on the San Antonio and El Paso line was stopped by two masked men in town and south of town, Texas, and the mail bags robbed of valuable packages. The driver's watch was appropriated. There were no passengers. It is thought by the same band who robbed the El Paso and Eagle pass line.

Mark and I are not all dead yet. In the ruins of a little girl at Cedar Mt. I found that she was cured of St. Vitus dance by placing her for nine successive mornings on the back of a snake which acted as the first and only cure. In the name of the Father, Son and Holy Ghost the treatment was devised by an aged Methodist.

George Lipton is called by the Athenians probably the most accomplished woman in the century has been. She had a complete mastery of French, German and Italian and serviceable knowledge of Latin, Greek, Spanish and Hebrew. She was widely learned in science and philosophy, and deep read in history, and she had an intimate knowledge of music and painting.

The Catholic clergy of the arch-diocese of Boston held a meeting at the Episcopal residence recently to consider the land agitation in Ireland. A committee was appointed which has prepared an address expressive of the feelings of the Archbishops and the clergy that assures to the Irish people their moral and material support in the present struggle. The address the platform of principles at the recent Land League convention at Buffalo, and promises sympathy and co-operation to all those who are laboring in such just and righteous causes as long as they are guided by these principles. It denounces "as pernicious and infamous the conduct of certain supposed emissaries of secret societies whose object is to induce into this movement a spirit of injustice and disregard for the laws of morality, as expounded by the Catholic Church," and declares in favor of peace and civil order.

A splendid heavy silver Waltham watch for \$18, the latest improved style gold hinged, worth \$40, I will sell it to you warranted for 5 years. Shall I send it by express? Uncle Harris, 221 Kearney street, between Bush and Sutter, San Francisco.

Lot Py Mistake
It is a known fact that the Prison bill was killed by mistake of its friends, through ignorance or inadvertency of the nature and purpose of the motion made to indefinitely postpone Quite a number of Assemblymen have since declared their purpose to support the bill, and understood the motion to be merely to postpone immediate action on the bill, but supposed that it could be taken up at any time thereafter Some of them have expressed a notion to introduce the bill, with slight amendments again and pass it, believing as they now do, that they were purposely duped.

Book Friends
It is the custom of some people to borrow all the books they can from their friends, and then make a practice never to return them By this means they in time procure a good library with very little money We are sorry to say that Reno is cursed with several of these friends We have no objection to loan our friends our books occasionally, but we do object to their keeping them, and when asked for their return to deny having the books Then names ought to be published for the protection of honest men

HENRY'S CARBOLIC SALVE.
THE MOST POWERFUL HEALING AGENT EVER DISCOVERED.

Henry's Carbolic Salve heals burns, Henry's Carbolic Salve cures sores, Henry's Carbolic Salve allays pain, Henry's Carbolic Salve cures eruptions, Henry's Carbolic Salve heals pimples, Henry's Carbolic Salve heals bruises.

Ask for Henry's, and take No. Other.

BEWARE OF COUNTERFEITS.

Read the Following:
John F. Henry & Co. Gentlemen: This is to certify that I have a very large, experienced practice in this northern part of Iowa, that my business is devoted to a treatment of chronic cases, involving many which have been pronounced incurable by other physicians. During the past year I have very freely used Henry's Carbolic Salve, in a number of very aggravated cases and it has given the best of satisfaction. It is healing, efficient and anti-septic and never disappoints the physician or patient. SHERLAND HARRIS, M. D. Mason City, Iowa, 15th Nov., 1879.

HALL'S BALSAM

Croup, Whooping Cough, and all diseases of the Breathing Organs. It soothes and heals the membranes of the Lung, inflamed and poisoned by the disease, and prevents the night sweats and tightness across the chest which accompany it. CONSUMPTION is not an incurable malady. It is only necessary to have the right remedy, and HALL'S BALSAM is that remedy. DON'T DESPAIR OF RELIEF, for this benign specific will cure you, even though professional aid fails.

Dr. M. H. Hinsdale.

Kewanee, Ill., writes us of a remarkable cure of Consumption. He says: "A neighbor's wife was attacked with violent coughing, and pronounced beyond help from the local physicians. As a last resort the family was persuaded to try HALL'S BALSAM. To the astonishment of all, by the time she had used one-half dozen bottles she was about the house doing her own work. I saw her at her worst stage, and had no idea she could recover."

BEWARE OF COUNTERFEITS.

DR. SPINNEY,
No. 11 KEARNEY STREET.

TREATS ALL
Chronic and Special Diseases
YOUNG MEN

HE MAY BE SUFFERING FROM THE effects of youthful folly or indiscretion, and do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee a permanent cure for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight stinging or burning sensation, and a weakening of the system to a manner the patient cannot account for. On examining the urinary deposits a copious sediment will often be found and some times small particles of albumen will appear, or the color will be of a thin milky blue, again changing to a dark and torpid appearance. There are many men who die of this difficulty. It is the cause of the disease, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases and a healthy restoration of the genital organs.

Office Hours—1:30 to 4 and 6 to 8, Sundays from 10 to 11 A. M. Consultation free. Thorough examination and advice, \$3.

P. S. For private diseases of short standing full course of medicine, sufficient for a cure with all instructions, will be sent to any address on receipt of \$10.

AYER'S CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, AND CONSUMPTION.

The few compositions, which have won the confidence of mankind and become household words, among not only one, but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, and has won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.
